Are we only asking for analysis of coliforms? I earlier saw a request for conductivity, pH, nitrate, TDS and metals) are those no longer on our list?

thanks

Subject: Harvey - questions for TDH

Greg,

List of questions regarding private water well sampling for TDH:

Can we use regional offices for collection locations?
Can you provide staff for sample location collections?
Can the TDH laboratories analyze for total coliform?

How many laboratory locations would be available for such analysis?

How many samples can you analyze and over what period?

Cost of analysis?

Data turnaround timeframe?

Feel free to add/edit, etc.
